Information

25X1

1. Between 1130 and noon on 21 August 1955, only three Li-2s were seen at Bad Voelau airfield. There was no air activity. The following radio installations which were located northeast of the airfield had been dismantled:
 - a. Long-wire antenna with three parallel antennas and radio truck which was previously parked under a lean-to roof near the antenna.
 - b. The PKV 45 D/F set without rod antenna on its gable.
2. Between 1015 and 1115 on 21 August, no changes in the occupation of Bad Voelau military post could be observed. Jeeps and trucks were seen.
